EXPERIENCE

On The Fridge, Co-Owner — Pittsburgh, PA — *May 2008 - present*

On The Fridge is a company that I co-founded, to plan conferences educating on website design and development technologies. Pittsburgh's first major Flash-centric conference, Flashpitt 08 was our first success. Since then, we have hosted Web Design Day with Refresh Pittsburgh, Flashpitt 09, Design (for) Interaction, amongst a few other workshops.

Lockerz, Clientside Engineer — Seattle, WA — *June 2009 - May 2011*

I wrote client side code, HTML, CSS, JS. In addition to my usual tasks I also did wireframes, photography, interface design and helped out in any other area I could be of service.

OnCompare, UX/UI — Seattle, WA — *January 2011*

With a group of eight we went from concept to a launched website in three weeks. I handled the UX and coded much of the UI on the site, using HTML5 and CSS3 standards.

New Perspective, Interactive Designer/Developer — Pittsburgh, PA — *June 2006 - October 2007*

This was my jump start into the web industry, previously a print focused designer, here I dove in head first and fell in love with interactive design and development.
